

# Cultural Identity activity

## Getting to know you

To learn about each other.

### Instructions

Divid the learners into small groups.

Provide each group a large sheet of flip-chart paper and markers. Have them to draw a large flower with a center and an equal number of petals to the number of learners in their group. Through discussion with their group members, have them find their similarities and differences. They should fill in the center of the flower with something they all have in common. Each member should then fill in his or her petal with something about them that is unique- unlike any other member in their group. Students should be instructed that they cannot use physical attributes such as hair color , weight etc. This encourages them to have more meaningful discussions with their group members. They should be encouraged to be creative in their ideas and drawings. After the small group activity, have them share with the large group, about similarities and differences.
